

VLSI DESIGN SOFTWARE

UNIVERSITY PROGRAM

for Educational and Research Licensing

University VLSI Education and Research

Micro Magic supports education and research by providing our EDA software *at no charge*.

We also provide libraries, tech files, IP, class notes and other content for our university users.

Many VLSI professors prefer Micro Magic tools because they are easy to learn and use, allow for customization, and do not 'lock-in' your organization to proprietary file formats.

To inquire about our Universities Program or to request free licenses, email our University Relations Liaison:
univ@micromagic.com

www.micromagic.com
408-414-7647

Software and materials are provided free of charge to qualified organizations.

The "University" section of our web site contains tools to help you use our tools, including:

- standard cell libraries
- class notes
- discussion forum
- technology files
- scripts and generators
